Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

The applicant is required to select one species from each of the following groupings:

Shape of the individual portions

1. Circle is depicted in Figures 1, 4, 8, and 20.
2. Oval is depicted in Figure 5.
3. Rhombus is depicted in Figure 6.
4. Particular shape is depicted in Figure 2.
5. Particular shape is depicted in Figure 11.

Fold Arrangements

1. Fold arrangements of Figure 1, 3 and 4.
2. Fold arrangements of Figure 2.
3. Fold arrangements of Figures 5, 6, and 8.
4. Fold arrangements of Figure 11.
5. Fold arrangements of Figure 19.

Dispenser

1. Dispenser in Figure 7.
2. Dispenser in Figure 9.

3. Dispenser in Figure 12.
4. Dispenser in Figure 13.
5. Dispenser in Figure 14.
6. Dispenser in Figure 15.
7. Dispenser in Figure 16.
8. Dispenser in Figure 17.
9. Dispenser in Figure 18.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Claims pertaining to the shape of the individual portions are:

1. Circle Shape depicted Figures 1, 4, 8, and 20: Claims 7-10 and 18-21.
2. Oval Shape depicted in Figure 5: Claims 7-8 and 18-19.

3. Rhombus Shape depicted in Figure 6: Claim 7.
4. Particular Shape depicted in Figure 2: Claim 7.
5. Particular Shape depicted in Figure 11: Claims 7-8 and 10.

Claims pertaining to the fold arrangements are claims 4-6, 8-10, and 19-21.

1. Fold arrangements of Figure 1, 3 and 4: Claims 4, 5, 6, 17, 19, 20, and 21.
2. Fold arrangements of Figure 2: Claims 4, 5, 6.
3. Fold arrangements of Figures 5, 6, and 8: Claims 4, 5, 17 and 19.
4. Fold arrangements of Figure 11: Claims 4, 5, 6, 17, 19 and 21.
5. Fold arrangements of Figure 19: Claims 4, 5, and 17.

Claims pertaining to the dispenser are claims 12-14 and 22.

1. Dispenser in Figure 7: Claim 12.
2. Dispenser in Figure 9: Claim 12.
3. Dispenser in Figure 12: Claim 12.
4. Dispenser in Figure 13: Claim 12.
5. Dispenser in Figure 14: Claims 12, 13, 14 and 22.
6. Dispenser in Figure 15: Claims 12, 13 and 22.
7. Dispenser in Figure 16: Claims 12, 13, 14 and 22.
8. Dispenser in Figure 17: Claim 12.
9. Dispenser in Figure 18: Claim 12.

The following claim(s) are generic: Claim 1.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or

Art Unit: 4137

corresponding special technical features for the following reasons: as evidenced by U.S. Patent 4,893,438 to Fry et al. in applicant's IDS, the elongated web members are a generic feature and are not a special technical feature. Each of the listed species have mutually exclusive features.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
